Course Outline

The course aims to give the student a thorough knowledge of the theory and practice of Indian Head Massage. The successful student will be awarded a nationally recognised qualification. Home study essential, both theory and practical.

The facilities available on site are of an excellent standard.

Course Content

- Theory and practice of massage techniques for the back, arms, neck, scalp and face. The application of appropriate oils.
- Relevant anatomy and physiology.
- Employment Standards for salon administration and practice.
- Client treatments.
- Case studies.

Case studies are an essential part of the criteria for the course and while Stafford College will endeavour to get clients it is ultimately the student's responsibility to ensure they have enough clients to cover this. The salons are run as in industry and as such clients have to pay for treatments.
